

SUDHIR REDDY

VICE CHAIRMAN

Sudhir Reddy - a robotics enthusiast by himself, is responsible for the entire technical, research and development including adjacent operations of the company. He turned his dream into reality by founding a leading robotics company in India during 2010. It is his vision to make the company Global No#1 as the largest multidimensional drone and robotics firm.

Mr. Reddy, since childhood had an interest towards electronics and robotics, so eventually he decided to do his masters in robotics and then while pursuing his PhD he decided to start his own venture in this field and dropped from studies by choice. During his stint in US while pursuing his masters, he realized that the technology in use there was very advanced when compared to India where robotics was at a very nascent stage. That is when he found huge potential in having his own robotics firm in India and decided to set up his venture
